- MongoDB
- Next.js
- TypeScript
- Git
- Node.js
- Express.js
- Tailwind CSS

### LANGUAGES

- Polish – Native
- English- C1
- German - A1

### EXPERIENCE

#### ● Atut Centrum, Warsaw

07.2021 - 08.2021

##### Intern

- Equipment and software maintenance services
- Professional IT consulting
- Providing clients with comprehensive solutions for both hardware and software selection and delivery

### PROJECTS

#### ● Expense Tracker

React.js | Node.js | MongoDB | Express.js

<https://github.com/Kooooowal/ExpenseTracker>

This project is a personal finance management application that helps users track their income, expenses, and overall balance. The main dashboard provides a summary of total income, expenses, and remaining balance, as well as a visual transaction chart over time.

#### ● Pinterest Clone

React.js | Node.js | MongoDB | Express.js

<https://pinterestclonefullstackfe.onrender.com/>

<https://github.com/Kooooowal/PinterestCloneFullstack/tree/main>

I created a web application cloning Pinterest, allowing users to browse, add, and organize images into boards. I implemented user authentication, data management via API, and interaction with the database. The backend, built with Express and Node.js, ensures performance, while the frontend, built with React, offers a dynamic and responsive UI.

### SOFT SKILLS

- Communication – Clear communication of ideas and effective collaboration with the team and clients.
- Teamwork – Experience working with Agile/Scrum methodologies, openness to feedback.
- Problem Solving – Ability to analyze and quickly find effective solutions.
- Creativity – Ability to create intuitive and visually appealing interfaces.
- Independence – Ability to organize work and take initiative.
- Time Management – Efficient planning and execution of tasks within deadlines.
- Attention to Detail – Precise coding and UI/UX optimization.
